

Table 1: Evolution of EEG Decoding Models

Stage	Representative	Rationale	Key Value
Deep learning for EEG	EEGNet (2018)	Compact, domain-aware deep model	Efficient EEG feature learning
Global temporal modeling	EEG Conformer (2023)	CNN frontend + Transformer attention	Long-range dependency + attention visualization
Large-scale pretraining	CBraMod (2025)	EEG foundation model	Pretrain $\rightarrow$ LP/FT multi-task adaptation
